180 DAYS OF ONLINE ACCESS TO OVER 4,200 EXAM-STYLE PRACTICE QUESTIONS

Item: 16 of 172 Mark Time Remaining: 218:46

Instructions: Select the appropriate response below by clicking on it.

A nurse provides instruction for a client who is taking isophane insulin suspension (NPH, Humulin N) at 7:00 AM each day. Which of these statements, if made by the client, would indicate that the client has the correct understanding of the instructions?

A. "I'll skip my insulin dose if I feel nauseated and am unable to eat."

B. "I'll eat every four hours so that I won't need to have snacks."

C. "I'll have a high carbohydrate snack just before I go to bed every night."

D. "I'll eat a snack around four o'clock every afternoon so that I won't feel shaky."

Next Previous Rationale Review/Finish Quit

The online Question Review Bank provides 180 days of access to over 4,200 exam-style practice questions for your use when and where you want. Choose your study modes, select topics you need to study and generate immediate feedback and rationales. You can also pause a practice exam and resume it later when your time is available.
